Current position

Worcester Polytechnic Institute Department of Mathematical Sciences
Assistant Research Professor — 2023 -
Advisor: Sarah Olson

Research interests

- Computational methods for fluid-structure interaction at low Reynolds number, particularly the method of regularized Stokeslets.
- Biological applications of Stokes flows.
- Reduced ODE models for hydrodynamically coupled bodies, e.g. cilia.

Education

Tulane University, New Orleans, LA — 2017–2023

PhD, Mathematics
Thesis: *Regularized Stokeslet surfaces and a coupled oscillator system in Stokes flow*
Advisor: Ricardo Cortez

Clark University, Worcester, MA. — 2010–2014

BA, Mathematics and Computer Science, Magna Cum Laude

Awards

Outstanding Thesis Award (Monetary award) — 2024
Tulane University Department of Mathematics

Outstanding Graduate Instructor Award (Monetary award) — 2023
Tulane University Department of Mathematics

Publications

- Regularized Stokeslet surfaces. *Journal of Computational Physics*. Volume 508, 113004 (2024). (**DF**, R. Cortez)
- Generalized matching preclusion in bipartite graphs. *Theory and Applications of Graphs*. Volume 5, Iss. 1, Article 1 (2018). (with Z. Wheeler, E. Cheng, **DF**, L. Liptak, K. Nataraj)
- The value of prior knowledge in machine learning of complex network systems. *Bioinformatics*. Volume 30, 22 (2017). (**DF**, D. Krane, D. Craft)

Research Experience

- **Worcester Polytechnic Institute** — 2023 -
  Department of Mathematical Sciences
  - Linear stability analysis of an elastic-structure fluid interaction problem using the method of regularized Stokeslets.
  - Mathematical modeling of cellular functions.
- **Tulane University** — 2017-2023
  Center for Computational Science in Mathematics Department
  - Extending the method of regularized stokeslets by using exact integration over triangulated surfaces.
  - Reduced models of cilia interaction to investigating the potential effect of elastic coupling and inertia on synchronization.
- **Massachusetts General Hospital** — 2016–2017
  Physics Research in Department of Radiation Oncology
  - Using theoretical models to demonstrate the value of prior knowledge in determining causal relationships in complex networks, with applications to machine learning in medicine.
  - Advisor: David Craft.

Teaching Experience

As instructor

Worcester Polytechnic Institute

- Calculus IV — Spring 2024

Tulane University

- Probability & Statistics I (Math 1110) — Spring 2023
- Introduction to Applied Math (Math 2240). — Fall 2021

As teaching assistant

Tulane University

- Introduction to Applied Math (Math 2240). — 2019, 2020, 2021
- Linear algebra (Math 3090). — 2020
- Calculus I (Math 1210). — 2017, 2019
- Calculus II (Math 1220). — 2018, 2020
- Calculus III (Math 2210). — 2018

Service and Outreach

- Reviewer for *Pi Mu Epsilon* journal — 2024
- Volunteer at WPI's Sonia Kovalevsky Day — 2024
- President of AMS Graduate Student Chapter — 2019-2021
- Mathematics department tea time organizer — 2018-2022
- Treasurer of AMS Graduate Student Chapter — 2017-2019
- Member of Inclusivity in Mathematics Task Force at Tulane (IMTF) — 2020-2023

Talks

- *Linear stability analysis of a coupled fluid-structure system using the method of regularized Stokeslets*
  Joint annual meeting of Korean Society for Mathematical Biology and Society for Mathematical Biology (July 1, 2024)
- *Regularized Stokeslet Surfaces*
  Division of Fluid Dynamics (APS Meetings) in Washington D.C. (November 20, 2023)
- *Simulating bodies immersed in viscous flows: new developments in the Method of Regularized Stokeslets (MRS)*
  Worcester Polytechnic Institute Mathematics Colloquium (September 8, 2023)
- *Regularized Stokeslet Surfaces* Scientific Computing Around Louisiana (March 11, 2023)
- *Regularized Stokeslet Surfaces*
  Math for All in NOLA (February 25,2023)
- *An Extension to the Method of Regularized Stokeslets*
  Special session on Recent Developments in Numerical Methods for PDEs, Joint Math Meetings 2023 (January 4,2023)
- *Computational Modeling of Bodies Immersed in Viscous Fluids*
  Hunter College Applied Math Seminar (November 3,2022)

Conferences

- Division of Fluid Dynamics (APS Meetings) in Washington, D.C. (November 2023)
- Joint Math Meetings in Boston, MA (January 2023)
- SIAM Annual Meetings in Pittsburgh, PA (July 2022)
- Blackwell-Tapia Conference at IMSI in Chicago, IL (Nov 2021)
- Math for All in New Orleans (2020,2021,2023)
- Scientific Computing Around Louisiana (2018, 2019, 2023)
